Verification and Performance Examination Report

Janus Capital Management LLC
151 Detroit Street
Denver, CO 80246

We have verified whether Janus Capital Management LLC (the "Firm") (1) has complied with all the composite construction requirements of the Global Investment Performance Standards (GIPS®) on a firm-wide basis for the periods from January 1, 2004 through December 31, 2017, and (2) designed its policies and procedures to calculate and present performance in compliance with the GIPS standards as of December 31, 2017. We have also conducted a performance examination of the Firm's Global Research Growth Equity Composite for the periods from April 1, 2005 through December 31, 2017. The Firm's management is responsible for compliance with the GIPS standards and the design of its policies and procedures and for the Global Research Growth Equity Composite's compliant presentation. Our responsibility is to express an opinion based on our verification and performance examination. We conducted this verification and performance examination in accordance with the required verification and performance examination procedures of the GIPS standards. We also conducted such other procedures as we considered necessary in the circumstances.

In our opinion, the Firm has, in all material respects:

- Complied with all the composite construction requirements of the GIPS standards on a firm-wide basis for the periods from January 1, 2004 through December 31, 2017; and
- Designed its policies and procedures to calculate and present performance in compliance with the GIPS standards as of December 31, 2017.

Also, in our opinion, the Firm has, in all material respects:

- Constructed the Global Research Growth Equity Composite and calculated the Global Research Growth Equity Composite's performance for the periods from April 1, 2005 through December 31, 2017 in compliance with the GIPS standards; and
- Prepared and presented the Global Research Growth Equity Composite's accompanying compliant presentation for the periods from January 1, 2008 through December 31, 2017 in compliance with the GIPS standards.

This report does not relate to or provide assurance on any composite compliant presentation of the Firm other than the Firm's Global Research Growth Equity Composite.

2008	-45.43	-45.80	-42.71	n/a	≤ 5	96.3	80,818

1. Janus Capital Management LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Janus has been independently verified for the periods January 1, 1994 through December 31, 2017.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Global Research Growth Composite has been examined for the periods April 1, 2005 through December 31, 2017. The verification and performance examination reports are available upon request.

2. For the purpose of complying with the GIPS standards, the firm is defined as Janus Capital Management LLC (Janus), an independent investment advisor registered under the Investment Advisers Act of 1940. The firm also includes assets under management of Janus Capital Singapore Pte. Limited and Perkins Investment Management LLC, wholly-owned subsidiaries of Janus Capital Group Inc. Effective May 30, 2017, Janus Capital Group Inc. and Henderson Group plc merged to form Janus Henderson Group plc. Effective January 1, 2018, a new GIPS firm, Janus Henderson Investors, was formed as a result of the merger of the predecessor GIPS firms Janus Capital Management LLC and Henderson Global Investors, which previously claimed compliance since January 1, 1994 and January 1, 2009, respectively. A complete list and description of composites and policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request.
3. Effective January 1, 2009, the Global Research Growth Equity Composite includes all fully discretionary, fee-paying accounts (excluding wrap accounts) invested in this strategy. Prior to January 1, 2009 the composite included only separately managed institutional accounts and sub-advised pooled funds. Global Research Growth Equity portfolios invest in high conviction investment ideas selected by the Janus research team, based on rigorous fundamental research. Investments will primarily be in large and mid size companies from around the world. The portfolios generally contain 80-120 securities and maintain sector weightings that closely follow the MSCI AC World Growth Index. The composite was created in April 2005.

4. Account returns are presented both gross and net of management fees. All account returns are net of transaction costs and gross of non-reclaimable withholding taxes, if any, and reflect the reinvestment of dividends and other earnings. Monthly composite returns are calculated by weighting each account's monthly return by its relative beginning market value. All returns are expressed in U.S. dollars. The 2010 and 2012 gross and net returns have been revised from those previously presented to correct for incorrect exchange rates used for some dividends.
5. The MSCI AC World Growth Index (Gross) returns are provided to represent the investment environment existing during the time periods shown. In 2012 the benchmark was changed from the MSCI World Growth Index to the MSCI AC World Growth Index. The change is retroactive to all historical time periods. The benchmark was changed because the MSCI AC World Growth Index is more representative of the Composite's strategy. The index is fully invested, which includes the reinvestment of dividends and capital gains. The returns for the index do not include any transaction costs, management fees or other costs. The index is not covered by the report of independent verifiers.
6. The dispersion of annual returns is measured by the asset weighted standard deviation of account returns represented within the composite for the full year. For those periods with five or fewer accounts included for the entire year, "n/a" is noted as the dispersion is not considered meaningful.
7. The three-year annualized ex-post standard deviation measures the variability of the monthly gross returns of the composite and the benchmark over the preceding 36 months.

	3-Yr Annualized Standard Deviation (%)	
December 31	Composite	Benchmark
2017	11.46	10.88
2016	11.99	11.45
2015	11.10	10.89
2014	11.23	10.67
2013	15.12	14.32
2012	17.84	17.68
2011	20.76	19.91
2010	26.85	24.63

8. The net returns shown are net of model investment advisory fees. Net returns are derived using the maximum fee rate in effect, adjusted for performance-based fees where applicable. Actual advisory fees can vary among clients invested in this strategy.
9. Effective June 2011, the current standard fee schedule for separately managed accounts is as follows: 0.60% on the first \$100 million; 0.50% on the next \$100 million; 0.47% on the next \$100 million; 0.45% above \$300 million.
10. Performance figures are based upon historical information and do not guarantee future results. Prospective clients should recognize the limitations inherent in composites, and should consider all information presented by Janus regarding the firm's investment management capabilities. Composite performance figures include changes in principal value, reinvested income and capital gains distribution.
