

Janus Henderson Index Committee Announcement: The Janus Henderson Guidance Index

The Janus Henderson Index Committee has determined to amend the rebalancing procedure for the current rebalance of the Janus Henderson Guidance Index, due to take place after the close of business on August 31st, 2020. This action is taken in light of the extraordinary circumstances regarding the COVID-19 global pandemic. As the pandemic has impacted companies' abilities to provide guidance, the Index Committee has mandated that the upcoming Calculation Date (August 24th, 2020) shall include companies that offer EPS guidance since the Index Calculation Day three periods prior (normally two periods prior). Apart from this change, all other procedures related to the rebalance remain in effect.
